# Practice**Admin**

## **Revenue**Suite

**RevenueSuite includes scheduling, billing, and account receivables in one easy to use solution.**

- PracticeAdmin provides healthcare providers, billers and coders with the tools they need to create and file medical claims as efficiently as possible.

- RevenueSuite is a complete medical billing package with all the features from BillingManager, ScheduleManager, and Receivables Manager.

- Create your own scheduling templates for one or multiple locations and set up automated patient reminders.

- An intuitive dashboard screen helps track all key patient demographics.

- Interface with most EMRs and lab systems.

- Our claim scrubbing technology reduces rejections and improves acceptance rates by more than 95%.

## Why PracticeAdmin?

✓ PracticeAdmin is a cloud-based medical billing and practice management software solution developed by medical billing professionals to meet your business requirements.

✓ It is an effective solution for scheduling patients, performing complex medical billing, and reporting on all the areas of your billing services.

✓ We serve large and small third-party billing services companies.

✓ We also offer accounts receivable software and document management software.

✓ PracticeAdmin partners and integrates with leading EMR solutions, as well as lab systems.

✓ Our solution has a low start-up cost, and we scale our pricing based on your needs and business growth.

✓ Monthly fee includes training, maintenance, and software upgrades.
